

# Talk to Me (feat. Tove Styrke)

## Cosmo's Midnight

So here it ends, no longer friends  
'Cause both of us are better at being wrong  
No, I can't handle this  
This awkwardness  
Waitin' for you at the garage lawn If you were me  
Maybe you would understand the things I do  
And if I were you  
I think maybe I'd be mad at me too  
If you don't wanna talk to me, talk to me  
'Cause I'm bad at apologies  
So what do you want from me?  
If you don't wanna talk to me, talk to me  
Then fuck it, I don't mind  
Try to get you off my mind  
If you don't wanna talk to me, talk to me  
'Cause I'm bad at apologies  
So what do you want from me?  
If you don't wanna talk to me, talk to me  
Then fuck it, I don't mind  
Try to get you off my mind Introduce yourself to everybody else  
But your eyes are never meeting mine  
Say the trust is gone, but this won't last long  
'Cause we all know this isn't the first time  
If you were me  
Maybe you would understand the things I do  
And if I were you  
I think maybe I'd be mad at me too If you don't wanna talk to me, talk to me  
'Cause I'm bad at apologies  
So what do you want from me?  
If you don't wanna talk to me, talk to me  
Then fuck it, I don't mind  
Try to get you off my mind  
If you don't wanna talk to me, talk to me  
'Cause I'm bad at apologies  
So what do you want from me?  
If you don't wanna talk to me, talk to me  
Then fuck it, I don't mind  
Try to get you off my mind I never said that I wanted you back (no)  
I never said nothing behind your back (so)  
Why are you actin' like this?  
You're such a hit and a miss (yeah)  
I say forget and forgive

But if you don't wanna talk to me, talk to me, yeah  
If you don't want to talk to me, talk to me  
If you don't wanna talk to me, talk to me  
'Cause I'm bad at apologies  
So what do you want from me?  
If you don't wanna talk to me, talk to me  
Then fuck it, I don't mind  
Try to get you off my mind  
If you don't wanna talk to me, talk to me  
'Cause I'm bad at apologies  
So what do you want from me?  
If you don't wanna talk to me, talk to me  
Then fuck it, I don't mind  
Try to get you off my mind
