

# Real Talk

Dave Hollister

Real talk  
I'm attracted to you  
Wanna do something to you  
Wanna feel your body all over mine  
Tell me what your feeling  
Can we make this happen  
We can get this crackin' in no time  
But there's one condition  
Before we get to sexin'  
Promise me that you won't get attached  
Don't start catching feelings  
Wanna start having children  
Baby I'm the wrong for that  
Real as I can be with you  
I just want to creep with you  
I aint trying to be your man  
Girl I hope you understand  
When you  
Wanna get broken off girl  
Need someone to call girl  
Wanna be the one who fills that void  
As much as I would like to  
The one thing that I can't do  
Is get in another relationship at this point  
So lets keep it simple  
And do out the dizzle  
This way no one gets hurts, baby  
At least I'm being up front girl  
Telling you what I want girl  
Let me know if this works for you  
Real as I can be with you  
I just want to creep with you  
I aint trying to be your man  
Girl I hope you understand  
Real talk this is  
Real talk this is  
Real talk this is  
Real talk this is  
Real talk this is  
Real talk  
Real as I can be with you  
I just want to creep with you  
I aint trying to be your man  
Girl I hope you understand  
Real as I can be with you

I just want to creep with you  
I aint trying to be your man  
Girl I hope you understand  
Real as I can be with you  
I just want to creep with you  
I aint trying to be your man  
Girl I hope you understand
