

# Smack

## 3 Doors Down

Rubber headed motor junky  
Run me down and try to stomp me  
Throw my life away and I'll be worthless just like you  
Somewhere now a baby's crying  
Down the road his mother's dying  
Shot a line and blew her mind and now she's turnin' blue  
Don't you throw your life away  
Just wait until another day  
Don't you throw your life away  
Cause baby I can feel it  
Don't you ever compromise it  
Don't you even realize it  
Don't you throw your life away cause baby I can feel it now  
Trip and fall  
I'm sure you all can tell me  
What is on the wall  
Behind the liquor store where you get smacked up all the time  
Perfect little life you wasted, overdosed and that death you tasted  
Scared you back into yourself, and now you walk the line  
Don't you throw your life away  
Just wait until another day  
Don't you throw your life away  
Cause baby I can feel it  
Don't you ever compromise it  
Don't you even realize it  
Don't you throw your life away cause baby I can feel it now  
Life away  
Life away  
Life away
