

# This City

## Snoop Dogg

A yes sir, radio station, BUSH69 when you're down  
Take me to the streets, shout out to the people out there in the city living that life  
So everybody in the city tonight, I want to you roll your window down and turn the music up  
loud, enjoy  
Radio station BUSH69, holdin it down Grab your money, we're getting out this neighbourhood  
Milk and honey, we're gonna burn up Hollywood, ooh Beach of Fortune and the neon sky  
You know while back with us will be go tonight  
That's what they told us and they must be right, so let's ride  
They built this city for you and me yeah Snooooooop  
They built this city for you and me yeah  
Snooooooop  
They built this city for you and me yeah  
Snooooooop  
They built this city for you and me yeah  
Snooooooop  
Champagne wishes, taste like American pie  
Rags to riches, you never know unless you try Beach of Fortune and the neon sky  
You know while back with us will be go tonight  
That's what they told us and they must be right, so let's ride  
They built this city for you and me yeah Snooooooop  
They built this city for you and me yeah  
Snooooooop  
They built this city for you and me yeah  
Snooooooop  
They built this city for you and me yeah  
Snooooooop  
All day wanna play, wanna rock with her  
All day, every day on the block with her  
My city, oh really be popping huh?  
64s, hip hop and locking up  
We changed the lane, remained the bain  
Little bit of joy with a lot of pain  
Is he Snoop Lion or Doggy mayne?  
Ask me again, I tell you the same  
DO Dubb with the key to the city  
Me and Pete, we go DYD  
Rip down, put my foot down  
And if I'm in your town then I got to get down  
Fight nights in Vegas  
Bright lights we made it  
Slayed it, slightly faded  
Californicated and highly motivated Snooooooop

They built this city for you and me yeah  
Snooooooop  
They built this city for you and me yeah  
Snooooooop  
They built this city for you and me yeah  
Snooooooop
