

Luna de Miel

Alejandro Escovedo

As I ascend
Up to the mountain top
I had the notion
That you knew the way
But I was wrong
For now we're lost
The path has vanished
The moon is upside down Hey! We've got to get away
Hey! We'll never be the same
Hey! Yeah we could of ramble on
But we'll find a place where we can be
C'mon
I feel the sun
Beating on my back
The birds are flying
And they won't come back
So take my hand
There's danger on the rise
I feel the tempest
About to crack the sky Hey! We've got to get away
Hey! We'll never be the same
Hey! Yeah we could ramble on
But we'll find a place where we can be
Here comes the wind
It wants to shake us up
But just hang on
Because our loves a shield
Won't let the fear
Carry us away
Won't let the waves
Ride our love away Hey! We got to get away
Hey! We'll never be the same
Hey! Yeah we could ramble on
But we'll find a place where we can be
We'll find a place where we can be
C'mon Hey!
Hey!
Hey! Hey!
