

She Wanna Party (feat. Millie Go Lightly)

Young Thug

Drinks in the air
Rich nigga put that ace of spade in the air
Mack a couple bitches, yeah we played everywhere
Shake it up and pop it, damn she sprayed everywhere And we be saucin'
I love her so you know I got to floss and
I'm not a dentist but a nigga flossin'
I'm fresh to death, they say I should be coughin' I'm 'bout to turn it up
She wanna party with a real nigga
She wanna party with a real nigga
Shawty wanna party with a real nigga
She wanna party with a real nigga
She wanna party, she wanna party
She wanna party, she wanna party
Twist it like a Tootsie Roll, Roll, Roll
Like a movie play your fuckin' role, role, role
Can't believe my circle small like Cheerios
Hate to say it but this ain't another Bankroll
She tried to pop it all for me
Lil shawty tried to drop it all for me
But I see right through her body
That she just want her money, she just vibin'
And if you lick her she just wanna pop it
And if you with her bring battery rocket
Fucked her good and now her heart is in my pocket
Her heart beatin' by the racin' but we gotta pace it
Sit on my face, that pussy wet like she fresh out the lake and
I milked this place, I beat the case, crank up my generator
I got some X, I got some syrup, I'm smokin' turtle tank and
And we be saucin'
I love her so you know I got to floss and
I'm not a dentist but a nigga flossin'
I'm fresh to death, they say I should be coughin' I'm 'bout to turn it up
She wanna party with a real nigga
She wanna party with a real nigga
Shawty wanna party with a real nigga
She wanna party with a real nigga
She wanna party, she wanna party
She wanna party, she wanna party I don't know if you gon' roll with me
I'm tryna see if you gon' stroll with me
Jeffery tryna roll
You should try livin' with a gangster
Stay down with me if I'm banged up

I'ma do or die with you no matter what
No matter what
Everything about you please me
Darlin' now hurry up, I'll eat that pussy
From you, away could never push me darlin'
I want you for real
And if you feel like I wasted your time, I reimburse
Now I might put a little interest on it
Okay about you, I'm ready to kill
I'ma come back on it, appeal
Look at my kit, I reimburse
And I just might pull a HNDRXX on her Trendsetter era
Rich nigga put that ace of spade in the air
Mack a couple bitches, yeah we played everywhere
Shake it up and pop it, damn she sprayed everywhere And we be saucin'
I love her so you know I got to floss and
I'm not a dentist but a nigga flossin'
I'm fresh to death, they say I should be coughin' I'm 'bout to turn it up
She wanna party with a real nigga
She wanna party with a real nigga
Shawty wanna party with a real nigga
She wanna party with a real nigga
She wanna party, she wanna party
She wanna party, she wanna party
