

# Blow That Smoke (feat. Tove Lo)

## Major Lazer

[Verse 1]

Darkness bring out our emotions  
Mix 'em up [?] love potions (Lose my head for you)  
Colors dance, we catch the sunrise  
Fix 'em, scars we share with white lines (Lose my head for you)[Pre-Chorus]

I got the keys to heaven now  
Babes all around and they got my mind spinnin'  
I got the keys to heaven now  
Babes all around and they got my mind spinnin'  
I got the keys to heaven now  
Babes all around and they got my mind spinnin'  
Suddenly doors just open wide  
Doors open wide

[Chorus]

Blow that smoke and let me love that fire  
I don't need no memories  
Baby, smoke and now I'm floating higher  
'Cause men ain't so good for me  
Blow that smoke and let me love that fire  
I don't need no memories  
Baby, smoke and now I'm floating higher  
'Cause men ain't so good for me, oh[Post-Chorus]  
So good, so good for me  
So good for me

So good, so good for me[Verse 2]

Pretty pictures keep me dreaming  
You're living, babe, but still deceiving (Lose my head for you)  
I'm in deep but I don't mind  
I want the moment, one of a kind

[Pre-Chorus]

I got the keys to heaven now  
Babes all around and they got my mind spinnin'  
I got the keys to heaven now  
Babes all around and they got my mind spinnin'  
I got the keys to heaven now  
Babes all around and they got my mind spinnin'  
Suddenly doors just open wide  
Doors open wide[Chorus]

Blow that smoke and let me love that fire  
I don't need no memories  
Baby, smoke and now I'm floating higher  
'Cause men ain't so good for me

Blow that smoke and let me love that fire  
I don't need no memories  
Baby, smoke and now I'm floating higher  
'Cause men ain't so good for me, oh[Post-Chorus]  
You're so good for me  
So good, so good for me  
So good for me, so good for me  
So good, so good for me[Bridge]  
Love that fire  
Memories floating higher  
Good for me (So good for me)  
Love that fire  
Memories floating higher  
You're so good for me[Chorus]  
Blow that smoke and let me love that fire  
I don't need no memories  
Baby, smoke and now I'm floating higher  
'Cause men ain't so good for me  
Blow that smoke and let me love that fire  
I don't need no memories  
Baby, smoke and now I'm floating higher  
'Cause men ain't so good for me, oh[Post-Chorus]  
You're so good for me  
So good, so good for me  
So good for me  
So good, so good for me
