

The Riot (feat. TEN & XIAOJUN of WayV)

GINJO

So whatcha here for?
Don't pretend you don't think you deserve more
Bet you're so bored
All these years just waiting for the encore You know later means never
Let's stay young forever
Light a flame when the night gets cold
I know you'll play a part in this great work of art
It's time for you now to lose control Join the riot
Tearing the whole place down
Hearts on fire
Burning to the ground
Take you higher
Stop what you're doing now
And join the riot
The riot yeah
The riot yeah
The riot What's the hold up?
Standing in the doorway but you don't knock
You look so shocked
Seeing your potential being unlocked You know later means never
Let's stay young forever
Light a flame when the night gets cold
I know you'll play a part in this great work of art
It's time for you now to lose control Join the riot
Tearing the whole place down
Hearts on fire
Burning to the ground
Take you higher
Stop what you're doing now
And join the riot
The riot yeah The riot yeah
The riot So are you staying or leaving
Cause I think you're ready to blow
There's only one thing I believe in
Join the riot
The riot yeah Oh
Join the riot yeah
Yeah
The riot Everybody come and join the riot, the riot
Don't you wanna take it higher now yeah
Everybody come and join the riot, the riot
Woah oh oh oh

Woah oh oh yeah
