

Together We Stand

Myd

We don't sleep
Always good to go
Where we stand
You shall know What you reap
Never let it go
Hold my hand
And help me so Buried deep
We are bound to grow
Underground
We stay low I can feel
We're about to blow
Tomorrow
Tomorrow
A millions grains of sand
Together we stand
A millions grains of sand Looking for a land You were afraid
Years ago
All I saw
And it's glow
By our fate
Our will to grow
To keep our songs
While (?)
The nights we shared
There's something true
You shall know
You shall know
You shall know
You shall know
You shall know
You shall know
You shall know
You shall know
You shall know
You shall know
You shall know
