

Hot Love

Aldo Nova

Lord have mercy, I'm on the line
My body's shakin' and my head is on fire
I've got a fever and it's making me run
Gettin' hot really is no fun So let me make this clear
I've got love comin' out of my ears
And baby you're so hot
So come on and do it and give me a lot of Hot love in the night, makes me feel right
Well can you blame me if I want some
Hot love, every night you do it so right
Baby do it and do it again Do it and do it and do it again
You're lovin' is so hot that it's almost a sin
My heart is pumping like it's under the gun
Getting hot really is no fun
So let me make it clear
I've got love coming out of my ears
And baby your so hot
So come on and do it, I'll give you a shot of Hot love in the night, makes me feel right
Well can you blame me if I want some
Hot love, every night you do it so right
Baby do it and do it again Do it and do it again
Do it and do it again
Do it and do it again
Your hot love
Your hot love
Hot love So let me make it clear
I've got love coming out of my ears
And baby your so hot
So come on and do it, I'll give you a shot of
Hot love in the night makes me feel right
Well can you blame me if I want some
Hot love every night you do it so right Hot love in the night, makes me feel right
Well can you blame me if I want some
Hot love, every night you do it so right
Baby do it and do it again Hot love
Hot love
Hot love
Hot love
