

# Phases

## Majid Jordan

I keep going through different phases  
I stay going through different phases  
My life's changing and I gotta face it  
My heart's taking me to different places I came to this country, didn't know a damn thing  
18 year old and in need of planning  
Thought I was ready, I wasn't ready  
Guess it's me and myself again  
Time to go make some friends  
Find me somebody to keep me safe  
All of these people and all of their names  
All of this love and all this disdain  
All of these seasons and all of this change  
Dreaming of my paradise I keep going through different phases  
I stay going through different phases  
I keep going through different phases  
I stay going through different phases  
I keep going through different phases  
I stay going through different phases Keep thinking am I gonna make it  
Right now my life is changing  
Too much for me to take in  
Feels like the world is going crazy  
All of these people and all of their names  
All of this love and all this disdain  
All of these seasons and all of this change  
Dreaming of my paradise  
I keep going through different phases  
I stay going through different phases  
I keep going through different phases  
I stay going through different phases  
I keep going through different phases  
I stay going through different phases
