

Care

Dance Gavin Dance

For now we'll lay by the ocean
For now no one is around
For now we'll act we're still young
For now we'll never come down I know you're not empty
I know you're still there
I know you're not empty
I know you still care
(I remember you back in the day)
Care
(Prodigy show 2003)
Care
(We were camping out in Inco jeans)
Care
(The ecstasy was super clean)
Higher than all of their voices
Higher than fading away
Got lost, lost in the moment
Got lost in tempting our fate I know you're not empty
I know you're still there
I know you're not empty
I know you still care
(I remember you back in the day)
Care
(Prodigy show 2003)
Care
(We were camping out in Inco jeans)
Care
(The ecstasy was super clean)
And you can rub it in my face
Sabotage all my connections
The Parasites won't go away
They live inside you
Got nothing clean for you to taint
Already gave you a confession
Propagating every consequence
Til hate consumes you I know you're not empty
I know you're still there
I know you're not empty
I know you still care I never wanted to be caught up in not looking back
I never wanted to be treated like a psycho
I never wanted to be singing about you again
But you keep locked in your possession over my soul God damn

You caught me looking back
God damn
With no discretion
God damn
You got me going mad
God damn
It's an obsession I never wanted to be caught up in not looking back
I never wanted to be treated like a psycho
I never wanted to be singing about you again I couldn't face another second of the vacant threats
I couldn't shuffle through pieces of my costume
I never wanted to be singing about you again God damn
You caught me looking back
God damn
With no discretion
God damn
You got me going mad
God damn
It's an obsession
