

Future People

Alabama Shakes

Some want to see
Those who've gone above
Friends that they lost
People they love
I'd rather meet
The me down the road
To lead me through the fog
Wouldn't ask for moreChildren
Take or leave it
Come, people
You got to give a little, get a little
And see it
Like future people
Some things could be
Seen from above
Thread of design
Don't trip me upChildren
Take or leave it
Come, people
You got to give a little, get a little
And see it
Like future people
Listen to teachers
Imagine a sound
Listen loud
And then you'll reach the top
