

Dead Celebrity

EMA

when you found out it was over
tell me what you wanna see
when you click on the link
of the dead celebrityes it's true you
never knew you
but I seen you on the screen
and I hope that
you could know that
they got problems you and me
so we can cease our jealousies
for the dead celebrity
who can judge us?
who can love us?
who can blame the world and me
cuz we wanted something timeless
in this world so full of speedin the weekly magazines
light a candle, R.I.P.
so close your eyes and
picture legend
tell me what you wanna see
when you click on the link
of the dead celebrity
