

Sick

Adelitas Way

I'm so sick of me, being sick of you
And the way you look, all the things you do
You drive me crazy, drive me crazy
Sick of being broke, can't pay for shit
I'm about to snap, I can't handle it
I'm going crazy, going crazy (going crazy) If you're sick like me
There's no stopping now
Try to break it up
And just let it out
If I was sick like you
I would feed the fire
I would light it up
And watch it all drop down
I'm so sick of my life
It's the same old trip
Try to make it bend
But it never gives
Look what you made me
what you made me
Well I hate my boss
He's a little bitch
If he keeps it up
I'll make him quit
Or I'll go crazy
I'm going crazy
If you're sick like me
There's no stopping now
Try to break it up
And just let it out
If I was sick like you
I would feed the fire
I would light it up
And watch it all drop down
And watch it all drop down I'm so sick of me
being sick of you
And the way you look
all the things you do
You drive me crazy
drive me crazy
Yeah! If you're sick like me
There's no stopping now
Try to break it up

And just let it out
If I was sick like you
I would feed the fire
I would light it up
And watch it all drop down If you're sick like me
There's no stopping now
There's no stopping now
Watch it all drop down
If you're sick like me
Then you're sick like me
