

# Hello Fascination

## Breathe Carolina

Here's to you glorify my darlings, are you satisfied?  
Here's to you criticize my darlings, are you satisfied? You building me up just to breaking me  
down  
You're being loud without a sound  
You pasting me in just to cutting me out  
Hello fascination You've dug my grave, but I pushed you in it  
I didn't give life to you, but you took it from me  
But now I'm taking it back  
I know you wanna push me  
Here's to you glorify my darlings, are you satisfied?  
Here's to you criticize my darlings, are you satisfied? You building me up just to breaking me  
down  
You're being loud without a sound  
You pasting me in just to cutting me out  
Hello fascination You're questioning the answers of the faith you've put in me You've dug my  
grave  
You've dug my grave You building me up just to breaking me down  
You're being loud without a sound  
You pasting me in just to cutting me out  
Hello fascination (Push me) You building me up just to breaking me down  
You're being loud without a sound (Push me)  
You pasting me in just to cutting me out  
Hello fascination  
Oh wooh Hello fascination  
You building me up just to breaking me down  
Hello fascination
