## Atoms for Peace

It slipped my mind  
And for a time  
I felt completely free  
Oh, what a troubled  
Silent poor boy  
A pawn into a queen I laugh now  
But later's not so easy  
I gotta stop  
The will is strong But the flesh is weak Guess that's it  
I've made my bed  
I'll lie in it  
I'm still hanging on Bird upon the wires  
I fall between the wings  
I avoid your gaze  
I turn out a face  
A pawn into a queen  
I laugh now  
But later's not so easy  
I gotta stop  
The will is strong  
But the flesh is weak  
Guess that's it  
I've made my bed  
I'll lie in it  
But it's eating me up  
It's eating me up  
It's eating me up (If I could feel others stand in my place)  
It's eating me up (If I could feel others stand in my place)  
It's eating me up (If I could feel others stand in my place)
