

# Babylon

## The Interrupters

Rebel against the kings of babylon!

Rebel against the kings of babylon!

Yeahh

They got the swords and the spears  
and the bows and the knives

But we'll fight it with our brothers and our sisters for our lives

Rebel against the kings of babylon! God made man and man made kings

And the kings rule man and they bring the suffering

And the people rise up, they see it as a riot

They wanna have control so you cant be self-reliant

They make your world and dont make an alliance

They sell your soul they will buy it for a dime

They sell it for a dollar, so they can turn a profit

It's a vicious cycle and the only way to stop it

Rebel against the kings of babylon!

Rebel against the kings of babylon!

Yeahh

They got the swords and the spears  
and the bows and the knives

But we'll fight it with our brothers and our sisters for our lives

Rebel against the kings of babylon! They run the drugs so they make all the money that the

busy bring up like a bee making honey

They hide in the shadow call them self-reliant

All the people shadows are so getting tired

We're not locked up, we're starving in the streets-o

Their belly's getting fat while the weak are getting weaker

The politicians, up for all the profits

It's a vicious cycle and the only way to stop it

Rebel against the kings of babylon!

Rebel against the kings of babylon!

Yeahh

They got the swords and the spears  
and the bows and the knives

But we'll fight it with our brothers and our sisters for our lives

Rebel against the kings of babylon! ooooooh- yeah yeah yeah

Songs of the system of control

oooooh- yeah yeah yeah

oooooh- yeah yeah yeah

It's a radical radical

oooooh- yeah yeah yeah

Yeah like it's happened before Rebel against the kings of babylon!

Rebel against the kings of babylon!

Yeahh

They got the swords and the spears  
and the bows and the knives

But we'll fight it with our brothers and our sisters for our lives  
Rebel against the kings of babylon!

They got the swords and the spears  
and the bows and the knives

But we'll fight it with our brothers and our sisters for our lives  
Rebel against the kings of babylon!
