True I thought my heart might break  
Cause slowly this kills  
Not everyone needs space  
Oh no  
You're what the doctor gave  
I swallow your pill  
I never loved this way  
Oh no  
You're picking me up  
And get me higher  
You fill my cup with desire  
Baby I'm back now  
Feeling how I used to feel  
You got me back now  
Stick around  
This is for real  
You put it down down down down  
My painkiller  
You put it down down down down  
My painkiller Baby I'm back now  
Feeling how I used to feel  
You got me back now  
Stick around  
This is for real  
You put it down  
You put it down  
I had to turn the page  
To get here to you  
Love how you numb my pain  
Oh yeah  
But all the nurses  
Beware of the juice  
It makes you go insane  
Oh yeah You're picking me up  
And get me higher  
You fill my cup with desire Baby I'm back now  
Feeling how I used to feel  
You got me back now  
Stick around  
This is for real
