

# I'll Fight

## Daughtry

I wanna see you run  
Anywhere you want  
Never let the darkness hold you back  
No fear of getting lost I wanna see you fly  
Way beyond the sun  
Anything you're ever gonna dream  
I pray that it will come But if you ever fall down straight to the bottom  
And you can't get back where you started  
Any place any time  
You gotta know for you I'll fight  
Where you wanna go  
I'd love to take you there  
Wish that I could make the road easy  
I wish that life was fair  
Don't wanna see you cry  
Even when it rains  
And I hope you don't forget this  
You were born for better things  
But if you ever fall down straight to the bottom And you can't get back where you started  
With no strength to stand  
Gonna reach for your hand  
When the going gets rough  
Right when it's hurting I will be there  
To help any burden  
Any place any time  
You gotta know for you I'll fight  
Any place any time you  
Gotta know for you I'll fight  
Anywhere you go  
Your gonna find me  
No matter what you need  
If you ever fall down and you can't get back  
If you lose your strength to stand  
If you ever fall down straight to the bottom  
And you can't get back where you started With no strength to stand I'm gonna reach for your  
hand  
When the going gets rough right when it's hurting  
I will be there to help any burden  
Any place any time  
You gotta know for you I'll fight  
Any place any time

You gotta know for you I'll fight
