

# Like We Belong

## GAWVI

    Hmm, yeah, yeah  
    Tell me what's going on  
    Why you stuck by the wayside?  
    I don't know, yeah, I don't know  
    We won't delay  
    Different strengths of the same thing  
You and I, yeah, you and I Why do we hide ourselves inside our different shelves?  
    Live someone else's truth  
    Sing someone else's tune  
Why are we so obsessed with trying to be perfect?  
    When will we understand?  
    When will we understand?  
    We belong here, we belong together  
    We belong here, we belong together  
    We belong here, we belong together  
Don't it feel like we belong? Don't ever let go  
    Even when the darkness holds  
    Will we shine like stars in the night?  
    Don't it feel like we belong?  
    No we won't ever let go  
    Even when we've lost control  
    Reaching out, it's never been closer  
Don't it feel like we belong? Tell me, how can we live?  
    Throwing stones, pointing fingers  
    I don't know, yeah, I don't know  
    We hide our scars like a shame  
    When that's what makes us the same  
    You and I, yeah, you and I  
Why do we hide ourselves inside our different shelves?  
    Live someone else's truth  
    Sing someone else's tune  
Why are we so obsessed with trying to be perfect?  
    When will we understand?  
When will we understand? We belong here, we belong together  
    We belong here, we belong together  
    We belong here, we belong together  
Don't it feel like we belong? Don't ever let go  
    Even when the darkness holds  
    Will we shine like stars in the night?  
    Don't it feel like we belong?  
    No we won't ever let go  
    Even when we've lost control

Reaching out, it's never been closer  
Don't it feel like we belong? Why do we hide ourselves inside our different selves?  
Live someone else's truth  
Sing someone else's tune  
Why are so obsessed with trying to be perfect?  
When will we understand?  
Yeah Tell me, are things gonna get better?  
Maybe if we learn to love ourselves we'll see  
In the shadows there is beauty  
Just let the change begin  
Hey Don't ever let go  
Even when the darkness holds  
Will we shine like stars in the night?  
Don't it feel like we belong?  
No we won't ever let go  
Even when we've lost control  
Reaching out, it's never been closer  
Don't it feel like we belong?
