

# What's a Fella Gotta Do

## Eels

I'm so bored, I wanna get in trouble  
Buried alive beneath my life's rubble  
I'll tell you what's really makin' me sad  
Your disinterest is drivin' me mad You're so fine  
If you were mine I'd love you up  
Give me a sign, my darlin'  
Well, I can shine if you'd just let me now What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you? I'm so tired of feelin' I could be more  
I need a purpose, what am I for?  
What I'd like, after close inspection  
Is for you to look in my direction  
You're so fine  
If you were mine I'd love you up  
Give me a sign, my darlin'  
Well, I can shine if you'd just give it up What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you? I'm so bored I'd welcome a disaster  
Anythin' to make the heart beat faster  
But I got a feelin' we could be so right  
Make my day, I'll make your night What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you? What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you? What's a fella gotta do  
To spend a little time with you?  
What's a fella gotta do  
To spend a little time with you?
