

Settle

All The Luck In The World

You kept, you kept me close
As winter, winter closed in
Closed in
I wrote, I wrote your name in
The settled snow
settled snow
It's love that lets you go
So keep close, keep close
Cause winter, winters closed us in
Closed us in
I wrote, I wrote your name in the
Settled breath on the
Window pane
It's love that let's you go
Our scenes stowed away
We're still, In old film
I've been following all your trails
It's just a random paw print
Just a random fucking paw print
