

# Doublespeak

## Veil of Maya

Betrayed and forgotten  
Erased and led astray  
Retribution  
When the core has rotted  
It begins to erode away  
Execution  
Suffer in pain  
You can not evadeTurning your back on the bond we've made  
You've dug your own grave  
And now your terror is mine to shape  
I'll watch you die afraid  
Tidal waves  
They're washing me far away  
Islands of misery  
Can't escape  
Disintegrate what we've made  
Shattered trust cutting deepOn these islands of misery  
On these islands of miseryTurning your back on the bond we've made  
You've dug your own grave  
And now your terror is mine to shape  
I'll watch you die afraidTidal waves  
They're washing me far away  
Islands of misery  
Can't escape  
Disintegrate what we've made  
Shattered trust cutting deep  
There is no life left in these bones  
Emptiness has swallowed me whole  
There is no light within this soul  
Emptiness has swallowed me wholeTurning your back on the bond we've made  
You've dug your own grave  
And now your terror is mine to shape  
I'll watch you die afraidTidal waves  
They're washing me far away  
Islands of misery  
Can't escape  
Disintegrate what we've made  
Shattered trust cutting deepTidal waves  
They're washing me far away  
Islands of misery  
Can't escape  
Disintegrate what we've made

Shattered trust cutting deep On these islands of misery  
On these islands of misery
