

Juggle

Case

I will no longer hide what I've been up to
As long as you don't cry when you hear the truth
Here it goes You wanted to go, I wanted to stay
Thought we had a night, just you and me
But I was here alone, how much can I take
Before I start to break Cause I wanted you, I wanted you
But you made me go, turn 1 to 2
2 turned to 3, 3 turned to 4
4 turned to "I don't even love you like before"
Cause I wanted you, I wanted you
Now there so many, don't know what to do
That's how I learned to juggle, to juggle
I never want to hurt you baby I love you
So I learned to juggle
If the tears of a clown never wipe away
You would see the regret written on my face
When I wanted to talk, you wanted to leave
I was left with nothin' but opportunities
I found another love, but it was only lust
So sorry for what happened to us Cause I wanted you, I wanted you
But you made me go, turn 1 to 2
2 turned to 3, 3 turned to 4
4 turned to "I don't even love you like before"
Cause I wanted you, I wanted you
Now there so many, don't know what to do
That's how I learned to juggle, to juggle
I never want to hurt you baby I love you
So I learned to juggle
It wasn't easy, it wasn't light
And I wonder how long I could disguise
What I was doing, doing to you
Now don't you leave, you wanted the truth
I'll take the blame, blame for it all
Even though all I wanted someone I could call home Cause I wanted you, I wanted you
But you made me go, turn 1 to 2
2 turned to 3, 3 turned to 4
4 turned to "I don't even love you like before"
Cause I wanted you, I wanted you
Now there so many, don't know what to do
That's how I learned to juggle, to juggle
I never want to hurt you baby I love you

So I learned to juggle
