

# As Above So Below

Anthony David

Far and away out on the edge  
There's a difference on a fringe  
Turn it around, closely inspect evolution on to the next  
Take a look around  
No we're not done and we never will be,  
Look at what I've found, harmony. YeahChorus:  
As above so below  
As above so below  
As above so below  
As above so below  
As above so below  
As above so below(4x)  
Blink of a eye, natural select,  
Infinite waves, butterfly affect,  
All from the one, the first and the last,  
The future present is past  
Memories of now become meaningless,  
And history is what comes next  
All that is left, our dreams and wishes, Come to accept it is what it isChorus:  
As above so below  
As above so below  
As above so below  
As above so below  
As above so below  
As above so below(Ad libbing throughout)  
As above so below  
As above so below  
As above so below  
As above so below  
As above so below  
As above so below
