

Freakazoid

Silversun Pickups

If you're feeling paranoid
What the hell does that mean?
You'd rather be alone
And I'm asleep If I'm such a freakazoid
Unable to breathe
We move along
Await and see I believe we're trying
To keep ourselves from dying Can I pull you home?
Away from the middle of the road
Another safety stone
Another way to know
This freakazoid
Who needs a little relief
You're not alone
Once you believe To keep yourself from dying
Hope it comes out flying
Keeping us from dying
As long as you keep trying
Keep yourself from dying
If it comes out flying
Keeping us from dying
As long as you keep trying Once again we're feeling
Once again with a little more love
Once again I believe
You're paranoid, another freakazoid
So let's wait and see
To keep yourself from dying
Hope it comes out flying
Keeping us from dying
As long you keep trying
Keep yourself from dying
Hope it comes out flying
Keeping us from dying
As long as you keep trying
