

When It Comes to You

Sean Paul & Tiwa Savage

When it comes to you, there ain't no satisfaction
Every night with you is harder than the last one
There ain't no, no such thing as enough of your love
No such thing, give me some of your love
No such thing as enough of your love
Baby girl, 'cah you got me caught right from beginning
Like a diamond shine glistening
Got me fiendin', I'm trippin' in love
Though I've been fallin', lightning's the T, love
Put your pressure in my adrenaline
Baby girl, 'cah you done already been
I'm in the kingdom, bring me the meatloaf
Let me in, love
Baby girl, 'cause just one time
Girl, it's never enough for me
I need one more night
Girl, it's never enough, never enough
Baby girl, one more dance is never enough for me
One more chance, never enough, never enough
When it comes to you, there ain't no satisfaction
Every night with you is harder than the last one
There ain't no, no such thing as enough of your love
No such thing give me some of your love
No such thing as enough of your love
When it comes to you
You make me, I'm mi finna fall out
Baby girl, you know I'm going all out
You so hard stepping, you know it's got me reppin'
For you, girl, any minute, little second
Mi waan get the car, waan get the shoutout
Hear me, girl, you know there ain't no dawg
You are my queen, don't treat me like scum
Listen to the words from me mouth
Baby girl, 'cause just one time
Girl, it's never enough for me
I need one more night
Girl, it's never enough, never enough
Baby girl, one more dance is never enough for me
One more chance, never enough, never enough
When it comes to you, there ain't no satisfaction
Every night with you is harder than the last one
There ain't no, no such thing as enough of your love
No such thing give me some of your love
No such thing as enough of your love
When it comes to you
Everything I wanted, ya got
Everything I wanted, found me a love
Everything I wanted, ya got

Everything I wanted
No such thing, no such thing, no such thing When it comes to you, there ain't no satisfaction
Every night with you is harder than the last one
There ain't no, no such thing as enough of your love
No such thing give me some of your love
No such thing as enough of your love
When it comes to you
