

# Most Hated

## Emmure

This is what I'm all about  
No regrets, no fucking doubts  
So you better what your fucking mouth  
Before I put you on the fucking ground  
Bitch Yeah I'm the motherfucker people always talking about  
Aw shit  
I see you standing, arms crossed, trying to stare me down  
Get bent  
So if you wanna see me fail I'll say it nice and loud  
Eat dick  
And you can hate me all you want because I don't give a shit  
I'm not done, in fact I'm just getting started  
I'm a great, true god is an understatement Yeah I'm the motherfucker people always talking  
about  
Aw shit  
I see you standing, arms crossed, trying to stare me down  
Get bent  
So if you wanna see me fail I'll say it nice and loud  
Eat dick  
And you can hate me all you want because I don't give a shit So who the fuck are you?  
So who the fuck are you? This is what I'm all about  
No regrets, no fucking doubts  
So you better what your fucking mouth  
Before I put you on the fucking ground Yeah  
Bitch  
Yeah I'm the motherfucker people always talking about  
Aw shit  
I see you standing, arms crossed, trying to stare me down  
Get bent  
So if you wanna see me fail I'll say it nice and loud  
Eat dick  
And you can hate me all you want because I don't give a shit
