

Have You Got It in You?

Imogen Heap

It takes a lot
To be always on the form
It takes a lot
I maybe not
All the time, all I've got
Maybe not Been one of those days
Safety first, don't push
What's the hurry?
One nerve remaining
Waiting on one look
Have you got it? Have you got it in you?
Have you got it in you?
All at once
Not a whisper nor word
Then all at once
(Let me have it all, let me have it, battle on)
(Easy target, look, can we just... just get it over with?)
It's getting worse
Against all the odds
It's getting worse
(Guard down, floor's yours)
(Last man standing. Can we just get it over with?) Been one of those days
Safety first, don't push (don't push me)
What's the hurry?
Cause there's one nerve remaining
Waiting on one look (one look now)
Have you got it?
Have you got it in you?
Have you got it in you? Blue, blue, they make me blue
Head down, quick
Take cover, be good, in the move
Blue you, make me anymore blue
Long spin, shout
Power clean
Right out of your suit Been one of those days
Safety first, don't push
What's the hurry?
One not remaining
Waiting on one look
Have you got it? Have you got it in you?
