

Somewhere Out There

Our Lady Peace

Last time I talked to you
You were lonely and out of place
You were looking down on me
Lost out in space
We laid underneath the stars
Strung out and feeling brave
I watched the red orange glow
I watched you float away
Down here in the atmosphere
Garbage and city lights
You've gone to save your tired soul
You've gone to save our lives
I turned on the radio
To find you on satellite
I'm waiting for this sky to fall
I'm waiting for a sign
And all we are
Is all so far
You're falling back to me
The star that I can see, yeah
I know you're out there
Somewhere out there
You're falling out of reach
Defying gravity, yeah
I know you're out there
Somewhere out there...
Hope you remember me
when you're home sick and need a change
I miss your purple hair
I miss the way you taste
I know you'll come back someday
On a bed of nails I'll wait
I'm praying that you don't burn out
Or fade away
And all we are
Is all so far
You're falling back to me
The star that I can see, yeah
I know you're out there
Somewhere out there
You're falling out of reach
Defying gravity, yeah
I know you're out there
Somewhere out there
You're falling back to me
The star that I can see

I know you're out there
Oh
You're falling out of reach Defying gravity
I know you're out there
Somewhere out there You're falling back to me
The star that I can see, yeah
I know you're out there
Somewhere out there You're falling out of reach
Defying gravity, yeah
I know you're out there
Somewhere out there
You're falling back to me
I know, I know
You're falling out of reach
I know
