

Missing You

Mindless Behavior

Missing you, missing you
Aye, Roc, hey, what up, Prod?
She won't even talk to me
Just give her some time
But I didn't even do anything wrong I can't get through, no matter how many times I hit you
You just pick up the phone
Say my name and let it go, you won't reply
Gave me your love about a hundred times
How long you gonna let this go on? I'm just gonna keep on calling you, texting you
Blowing you up on your AIM, no, I don't give up easily
Go ahead and keep the deleting me
From your 3G, I'ma be all in your brain
So you wanna play games, that's alright
Girl, I got something to say
Don't hang up in my face
'Cause you're too stubborn to let it go
If that's how you wanna play
Keep pushing me away, make no mistake
Girl, I'ma keep on missing you I'm trying to get to you but if I can't get through
Ain't nothing I can do but keep on missing you
Do what you gotta do but if I can't get through
Ain't nothing I can do but keep on missing you Tell me, tell me all of my name, just pick up the
phone
I'm not gonna leave you alone
Don't be mean, how many times do I gotta say sorry?
Stay mad if you want, this just mean your love is strong
I'm gonna keep on calling you, texting you
Blowing you up on your AIM, no, I don't give up easily
Go ahead and keep deleting me
From your 3G, I'ma be all in your brain
So you wanna play games, that's alright Girl, I got something to say
Don't hang up in my face
'Cause you're too stubborn to let it go
If that's how you wanna play
Keep pushing me away, make no mistake
Girl, I'ma keep on missing you I'm trying to get to you but if I can't get through
Ain't nothing I can do but keep on missing you
Do what you gotta do but if I can't get through
Ain't nothing I can do but keep on missing you Baby, forgive me, trust me
I swear you ain't missed nothing at that party
That girl didn't mean a thing
The only girl I want is you, hello Girl, I got something to say

Don't hang up in my face
'Cause you're too stubborn to let it go
If that's how you wanna play
Keep pushing me away, make no mistake
Girl, I'ma keep on missing you I'm trying to get to you but if I can't get through
Ain't nothing I can do but keep on missing you
Do what you gotta do but if I can't get through
Ain't nothing I can do but keep on missing you Missing you, missing you, missing you, missing
you
Forgive me, trust me
Missing you, missing you, missing you, missing you
Forgive me, trust me I'm sorry, Brianna
