

Minus

ohGr

Mouth of depleted is nothing caught
The trap concealed in a restless plot
Read fix equation, no artificial sum
Minus addition is nothing Pain, contact, backward pain Acting perception shaping thought
undone
Learned taught behavior
A brainwashed hum
Sucking the savior
Suck the bottle fed gone
Minus addition is nothing
Pain, contact, backward pain
Street smart defeated caught knife in back
Childproof eviction trained
Falling through cracks
Duel with conviction who fought, won, lost
Minus addition is nothing Pain, contact, backward pain Get out
