

Go There (feat. David Correy)

Locksmith

I just want to let you know Ma, that I just wanna thank you for everything I love you so very
much I love you too Momma (Chorus #1): David Correy

My momma told me not to cry

Gotta beam myself up when I'm down

Follow my name in the flashy lights

Those flashy lights

Where I belong

#1: David Corey

So is the tale of the struggle

A go getter, young hustler

A couple bucks in his pocket

Both hands on The Bible

Praying for revival

Seen the ups & the downs from when I come around full circle

He Saw enough to find a way

Even harder to just fight just to get through every day

It's a hard knock life for us

No matter what it takes, please show, show me the way

It's a cold world

It's a hard knock life for us

I'm going home everyday, but I need you cause...

Really wanna go there, but I'm heading fast nowhere

Feeling like I'm hanging on

What's it gonna take to feel strong

Know I need to go there

Through the rain & the fire

What's it gonna take know that I'm all I need to breathe My momma told me not to cry

Gotta beam myself up when I'm down

Follow my name in the flashy lights

Those flashy lights

Where I belong #2: Locksmith

And I can still remember the moments when you would smile at me

How could I pretend for a moment that there's a side of me

Doesn't wish that I was there with you

Lady I miss you

You're an angel so you're hanging where you were meant to

I'm living and taking my life to new heights, that's the reason it stings

Feeling worthless, you gave me purpose

You believed in my dreams

I'm thinking back to when I rapped with friends

You would let us use your garage to get our practice in, see

I know life's hard on us, just hold on tight, don't rush

Is what you told me as I snickered with my homies
Thinking we know it all, there was so much more you would show me
If I open up my heart, then my blessings come
You fall short, that's the part where you learn your lessons from (I know)
You can't expect to win them all, but I know you'll be there to catch me when I fall
