

# Red Lights

Chloe x Halle

Mind's driving fast, light years away  
Like shining stars, just reaching space  
And I don't know if I'm awake  
Mind's driving fast, light years away And all I want, is to be home  
Hit the gas, just be alone  
Turn o? the world  
Dance with myself, like ballerinas There will be no red lights tonight, no oh  
Not even will stars like yellow be shown  
So quick that all that I see is in slow mo  
Feel numb in my bones  
Zen in the zone  
Run all the stop signs, skidding roads  
Explosive make the time go blow  
And I don't if I'm inching close  
But I, run all the stop signs, skidding roads And all I want, is to be home  
Hit the gas, just be alone  
Turn o? the world  
Dance with myself, like ballerinas There will be no red lights tonight, no oh  
Not even will stars like yellow be shown  
So quick that all that i see is in slow mo  
Feel numb in my bones  
Zen in the zone Not complete until I ?nd what I'm looking for  
Home is where ever put the heart in  
Zoom, zoom, zoom, zoom  
There will be no red lights tonight, no oh  
Not even will stars like yellow be shown  
So quick that all that i see is in slow mo  
Feel numb in my bones  
Zen in the zone  
There will be no red lights tonight, no oh  
Not even will stars like yellow be shown  
So quick that all that i see is in slow mo  
Feel numb in my bones  
Zen in the zone
