

My Alibi

Blindside

My feet felt light for the first time in months
It was like you came walking across the room
Straight at me and then straight through me
And then stopped and stood still for awhile
And I knew then that I'd been lonely for quite some time and
And as we started to dance you gently took off my tear soaked coat
And let it fall heavy to the floor, and then
Then we danced some more
When all is said and done
When all is gone and still just begun
I will be asked what I did with my time and why
Can you be my alibi
Cause I know, I know, I spent it dancing with you
And I have been here before
These emotions are relived
It's like a joy deja vu
You have been walking along
With me, for quite some time and
But me with my deaf ear and blind sides
And both of these I turned against you
We all know that you're there
We all know
When all is said and done
When all is gone and still just begun
I will be asked what I did with my time and why
Can you be my alibi
Cause I know, I know, I spent it dancing with you
When all is said and done
When all is gone and still just begun
I will be asked what I did with my time and why
Can you be my alibi
Cause I know, I know, I spent my time dancing with you
Said and done
Now all is gone and still just begun
What have I done with my time and why
You are my alibi
Cause I know, I know, I'm dancing with you
