

# Lonely Without You (This Christmas)

[Mick Jagger](#)

I'm going to be lonely without you,  
going to be a lonely, lonely Christmas without you.  
My future's looking bleak, oh so down I could weep. It's the saddest time of the year, oh yes it  
is,  
Oh it's going to be a lonely, lonely Christmas without you It's going to be a lonely, lonely  
Christmas without you  
There's no presents under the tree  
There's nobody waiting for me  
Oh but you never know, never know what's coming round It's the season of good will, Oh I  
guess I love you still  
Be a lonely, lonely, lonely, lonely, lonely, lonely Christmas without you.
