

# Violent Shiver

[Benjamin Booker](#)

Where I'm goin', where I'm goin'?  
Where I'm goin' I'll never know  
Into the fire I thought you'll put it girl  
The 'I've ever known  
It's just a thing, I tell her to look at it That's all I know  
That's all I'll ever know  
Turn it all  
Goin' across the mighty river  
Make a mile for me in the rain  
Let's go down, no talk with a violent shiver  
How the hell we'll go down?  
Just keep in mind what I said  
We found a way  
We found a way  
We found a way, a way  
We found a way That's all I know  
That's all I'll ever know  
Turn it all  
Goin' across the mighty river  
Make a mile for me in the rain  
Let's go down, no talk with a violent shiver  
How the hell we'll go down?  
Just keep in mind what I said  
We found a way  
We found a way  
We found a way, a way  
We found a way
