

Crazy Over You

BLACKPINK

BLACKPINK - Crazy Over You Lyrics
I been known to kiss and tell
Send girls to wishing wells
If you're my man I want you to myself I know I'll have enemies
Long as you're into me
But I don't care cause I got what I need Oh yeah
Need to get with the program
Boy I keep you close like slow dance
Hit you with that red don't go there, no no man
Met him
Then get him
I make sure we stay
Got the venom
To dead him
If he want a snake
I mean sneak
I mean play hide and seek
Know that I'm gonna find you
Make sure you get left or you leave I saw you
And knew what I was trying to do I had to play it real real smooth
And once I finally made my move I went crazy over you
Over you only you
I went crazy over you
Like eee eee eee Feels wrong but it's right, right
Blacked out no night light
Pinked out like fight night
Maxed out of my mind and the price right,
Might buy, might bite Never the regular degular
Would clean my mess up
But I rather mess it up
Simple is so so, I need that oh no
Don't you know I'm loco I saw you
And knew what I was trying to do I had to play it real real smooth
And once I finally made my move I went crazy over you
Over you only you
I went crazy over you Like eee eee eee Boy by the time I'm done
I won't be the only one
Acting like you made me
You can't blame me Swear once you get a taste
You gon' take my place
And you'll love me crazy Sound the alarms Imma be mad 'till you get me back in them
arms Charge Give me all you got
Go insane with it better love hard Love me like crazy

I love you crazy
