

# Smoke and Mirrors (Feat. CYBER DIVA)

Jayn

I never meant to call you out  
I've always seen behind your smoke and mirrors  
Oh sweetheart, please don't yell at me, it really isn't hard to see  
The truth that's rotting underneath Why weren't you honest from the start?  
You know, I've always thought she must have liked you  
She's just a temptress, don't you know, she'll say she loves you, even though  
She only wants to steal your soul I'll save you You said you'd always be my friend  
That we'd get married when we both got older  
I'd never heard those words before, you made me long for something more  
But then she tried to steal your love  
What's with that look?  
Do you really think I'm out of line tonight?  
Stop calling her name, if you play my game  
She may just make it out alive I love you I'm not asking much, just give me your heart  
And put no one else above me, go on, just say you love me  
Take my hand in yours and tell me that I'll always be the one  
Without you, my life means nothing so just say you love me tonight And if you lie, this poor  
girl will have to die I'm sorry that I lost my cool  
As you can see here, I've been very busy  
I found her number in your phone, asked her to meet me here alone  
So we could talk, just one on one What's with that look?  
Do you really think I'm taking this too far?  
All you have to do is swear that you'll be true  
And I will let her go right now  
Just don't lie No, I won't fall for this again  
I'll always see behind your smoke and mirrors  
I know you love me deep inside, you're simply caught up in her lie  
So I will cut you free myself I'm not asking much, just give me your heart  
And put no one else above me, please, just say you love me  
Take my hands in yours and tell me that I'll always be the one  
Without you, my life means nothing so just say you love me C'mon, what's the problem, quit  
your crying, be a man  
Surely, she couldn't mean that much, let me give you my love  
Take my soul, my heart, and body, yes I give it all to you  
And if you still won't accept it, you're gonna regret it I hate to play these games  
But you're driving me insane  
Won't you tell me that you'll stay  
Now that she's not in the way?
