

# Let's Pretend

## Germs

Out on the streets, what ya lookin' for  
Thing in your bed's just another whore  
Tear in your eyes, not a tear at all  
Girl that you touch, you could never fall  
Stream in your mind, it's a tearin' sty  
Let's pretend you're vicious  
Let's pretend you're cool  
Let's pretend suspicious  
Let's pretend you're a fool  
Your leather is tight but you wear it full  
Together is right but you gotta be cool  
Cut your wrists but you don't feel the pain  
Change your mind but you still feel the same  
Dream ain't your kind, just another lie  
Let's pretend you're vicious  
Let's pretend you're cool  
Let's pretend suspicious  
Let's pretend you're a fool  
Sell us a story that we can believe  
Spend your dollars on pills for relief  
Love is a future that you just can't see  
Standing answers to questions are free  
Scream in your boredom, life's just to die  
Let's pretend you're vicious  
Let's pretend you're cool  
Let's pretend suspicious  
Let's pretend you're a fool  
Dive in problems, just like stealin' a fix  
Is your life to live or is it for kicks?  
Kick dirt in the faces of angry dream men  
Stand on your chairs,  
Don't stand in the light 'cuz you know you can't cry  
Let's pretend you're vicious  
Let's pretend you're cool  
Let's pretend suspicious  
Let's pretend you're a fool
