

# Split Stones

Maggie Rogers

[Verse 1]

I can see it now, tripping on split stones  
Trying to make hits so we could play them loud  
Picking at our souls like we didn't know  
Just like we were only playing with the sound[Pre-Chorus 1]  
Trying to control what was so low  
But I never knew how then to just go and let it out  
Get it out

[Chorus]

But if you could fight  
If you could choose  
If you could say all the things you wanted to  
If you couldn't lie  
If you would only move like you had something to lose  
If you could cry  
If you couldn't sleep it off  
If you could feel everything you've ever caused  
If you couldn't lie  
If you would only move like you had something to lose  
Like you had something to lose  
Like you had something to lose[Verse 2]  
And I'm not saying i would always speak up  
That it didn't creep up on me all the time  
I'm just saying there was a window  
Where you could've let go in that place and time

[Pre-Chorus 2]

Laughing all it off like it was innocent  
Oh, but all i ever wanted was to get rid of it  
And let it out  
Get it out[Chorus]  
But if you could fight, if you could choose  
If you could say all the things you wanted to  
If you couldn't lie  
If you would only move like you had something to lose  
If you could cry, if you couldn't sleep it off  
If you could feel everything you've ever caused  
If you couldn't lie  
If you would only move like you had something to lose  
Like you had something to lose  
Like you had something to lose[Bridge]  
And I can see us there  
You staring at me

And me just praying for air  
I can see us there  
Standing cheek to cheek  
And counting week by week  
Wishing everything would be clear  
I can see us there  
I can see us there[Chorus]  
But if you could fight, if you could choose  
If you could say all the things you wanted to  
If you couldn't lie  
If you would only move like you had something to lose  
If you could cry, if you couldn't sleep it off  
If you could feel everything you've ever caused  
If you couldn't lie  
If you would only move like you had something to lose  
Like you had something to lose  
Like you had something to lose
