

# Gone Is the Night (feat. Jorge Blanco)

## Kris Kross Amsterdam

Everybody over here It's going all out  
Love getting high when the lights are low But every bottle that I pour  
Makes me miss you more  
These other girls don't compare to you So I gotta move  
Like I know how to do  
'Til every shawdy wanna dance on me And I'll do my best  
To make my lips forget  
That it ain't you kissing all of me Dark is the night  
Where is the sun don't leave my skies  
Gone is the night  
Out in the hunt that fills my eyes  
So much temptation up in here  
I can't help myself  
I guess I'm not going home alone Oh I need a taste  
To help me erase  
The thought of you-u-u So I gotta move  
Like I know how to do  
'Til every shawdy wanna dance on me And I'll do my best  
To make my lips forget  
That it ain't you kissing all of me Dark is the night  
Where is the sun don't leave my skies  
Gone is the night  
Out in the hunt that fills my eyes  
When you gonna stop? Oh when you gonna go?  
When you gonna stop? Oh when you gonna go?  
When you gonna stop? Oh when you gonna go?  
When you gonna stop? Oh when you gonna Dark is the night  
Where is the sun don't leave my skies  
Gone is the night  
Out in the hunt that fills my eyes Dark is the night  
Where is the sun don't leave my skies  
Gone is the night  
Out in the hunt that fills my eyes
