

# Comes Then Goes

## Pearl Jam

High or low, where'd you go  
Are you stuck in the middle?  
A spectral invisible ghost I'm here juxtaposed  
Like images of angels in the snow  
Our courage melts away, it comes then goes Where you been? Can I find  
A glimpse of my friend  
Don't know where or when one of us left  
The other behind  
Divisions came and troubles multiplied  
Incisions made by scalpel blades of time  
Comes then goes  
Comes then goes Can I say, how ya been?  
I can guess and conjecture  
My altered perceptions unclear  
Please interfere  
Sadness comes with it a sea of tears  
Would some love be best had it not appeared? Is this you? Here I stand  
Intense recollections of pain, self-neglecting again  
Like you, I keep it in  
Thought you found a game where you could win  
Yeah, it's all vivisection in the end Comes then goes  
Comes then goes  
Comes then goes  
High or low, try again  
She fell off the altar  
A vision you caught of her but then  
A woodcut in red  
I wish it was not you that she had led  
Selfish navigation with no end Where'd you sleep? Can I find  
A deeper connection  
In the face of rejection I'm trying  
I'm trying  
Evidence in the echoes of your mind  
Leads me to believe we missed the signs Can I try, one last time?  
Could all use a saviour  
From human behavior sometimes  
And the kids are alright  
The Queen of Collections took your time  
Sadness comes 'cause some of it was mine Comes then goes  
Comes then goes  
Comes then goes

Comes then goes
