

# Stars

## Grace Potter & The Nocturnals

I lit a fire with the love you left behind  
And it burned wild and crept up the mountain side.  
I followed your ashes into outer space  
I can't look out the window  
I can't look at this place  
I can't look at the stars  
They make me wonder where you are  
Stars  
Up on heaven's boulevard  
And if I know you at all  
I know you've gone too far  
So I, I can't look at the stars  
All those times we looked up at the sky  
Looking out so far  
We felt like we could fly.  
And now I'm all alone in the dark of night  
The moon is shining But I can't see the light And I can't look at the  
Stars  
They make me wonder where you are  
Stars  
Up on heaven's boulevard  
And if I know you at all I know you've gone too far  
So I, I can't look at the stars Stars  
Stars  
They make me wonder where you are  
Stars  
Up on heaven's boulevard  
And if I know you at all  
I know you've gone too far  
So I can't look at the stars
