

# Electric Bloom

## Foals

This is a warning shot  
Your final call  
An empty morgue  
With gurning heartsHollowed crowns  
And all I see  
Is marching bands  
Is marching bandsMarching bands  
Which never rest  
In broken standsButcher birds  
With useless throats  
With useless throats  
We're not safe  
Of dying kings  
With plastic knivesIt's just another hospital  
It's just another, it's just another  
It's just another hospital  
It's just another, it's just anotherIt's just another hospital  
It's just another hospital  
It's just another hospital  
It's just another, it's just anotherCaptains made  
With metal tags  
Flags brought down  
Of hollowed crowns  
It's everything  
Without a time  
It's just a  
It's just aIt's just another hospital  
It's just another, it's just another  
It's just another hospital  
It's just another, it's just anotherGoodbye all  
Your marching bands  
Laid to rest  
In broken standsButcher birds  
Will fly away  
Will fly away  
Will fly awayThis is not  
A warning call  
Your final shotAll I see  
Is butcher birds  
Will fly away  
Electric bloomIt's just another hospital  
It's just another, it's just another

It's just another hospital  
It's just another, it's just another
