

# Pack Lite

## Queen Naija

See I don't got the time or the patience to deal with your shit today  
You've been walking around with a stank attitude like your shit don't stank  
I don't give you no trouble on most days, but I will today  
I've been holding my tongue, got the right to be in my feels today 'Cause I work too hard, but I  
love you way more harder  
I done had my share of being walked all over, now I'm smarter  
You can think you right all you want, I see you through you just like water  
You can gon' 'head puff up your chest, but it bet not go no further Give me, bad vibes (Ooh,  
ooh, ooh, ooh)  
If you don't get your act together, you might have to  
Pack lite (Ooh, ooh, ooh, ooh)  
And do you  
Bad vibes (Ooh, ooh, ooh, ooh)  
My patience running low and you ain't got a lot of time  
So pack lite (Ooh, ooh, ooh, ooh)  
And do you  
Might say you can find somebody else, tuh  
She can never be me  
You just want someone, let you do what you want  
But that'll never be me  
And I love to treat you right, but I'ma check you when you wrong  
You can't tell me that you hear me when you're scrolling through your phone 'Cause I work too  
hard, but I love you way more harder  
I done had my share of being walked all over, now I'm smarter  
You can think I'm wrong all you want, but that truth got you so bothered  
You can gon' 'head puff up your chest, but it bet not go no further, ooh Bad vibes (Bad vibes)  
If you don't get your act together, you might have to  
(If you don't get your act together)  
Pack lite (Ooh, ooh, ooh, ooh)  
And do you  
Bad vibes (Bad vibes)  
My patience running low  
And you ain't got a lot of time  
So pack lite (Ooh, ooh, ooh, ooh)  
And do you  
You don't get it do ya? (Oh, oh, oh, oh)  
I'm telling you, I had enough  
(Yeah) I can only take so much  
Aye, Aye (Oh, ooh, ooh, ooh) You don't get it do ya? (Oh, oh, oh, oh)  
I'm telling you, I had enough  
(Yeah, yeah, yeah) I can only take so much  
Aye, Aye, Aye Bad vibes

If you don't get your act together, you might have to  
Pack lite  
Ooh, ooh, ooh, ooh, ooh, ooh, ooh, oohBad vibes  
You gone probably be right back tomorrow  
Might as well, pack lite
