

Higher and Higher (feat. JJ Grey)

Galactic

Ooh, ooh yeh
Lookie Here There's a secret place
That I go in my mind
Where's there's no trouble
Where the pain gets left behind
A place that I control,
All the thoughts that leave my soul
The life, the light
The life, the light Your desire sets you free
Your desire, ooh, and it's got to be deep
Aw, yeah
Steppa the fire, steppa the beat
Steppa the fire see how far you can
See, aw, baby
You got to, you got to, you got to Higher and higher
Push it higher and higher
Push it higher and higher Can you feel it baby? (yeah)
Go tell it on the mountain, babe (yeah)
Won't you shout it? (Shout it from the highest peak) I'll change within
All the things that change without
You feel the buzzin' through you skin
'Till you wanna shout
That's how you change the world
Change it one thought at a time
You take it higher, you take it higher
Your desire sets you free
Your desire, lord, it's got to be deep!
Aw, yeah Steppa the fire, steppa the beat
Steppa the fire, see how far you can
See, aw, baby
You got ta, you got to, you got to Higher and higher
Push it higher and higher
Push it higher and higher Can you feel it baby? (yeah)
Go tell it on the mountain, babe (yeah)
Won't you shout it?
(Shout it from the highest peak) I'm standing guard now
'Till the coast is clear
I give no power to the dark
Or my oldest fear
That's how you change the world
Change it one thought at a time
You push it higher, you push it higher Your desire sets you free

Your desire, lord, and it's got to be deep
Aw, yeah Steppa the fire, steppa the beat
Steppa the fire, see how far you can
See aw, baby
You got to, you got to, you got to Higher and higher
Push it higher and higher
Push it higher and higher Can you feel it baby? (yeah)
Go tell it on the mountain, babe (yeah)
Won't you shout it?
(Shout it from the highest peak)
