

When You're Falling

Afro Celt Sound System

Everyday, you crawl into the night
A fallen angel, with your wings set alight
 When you hit the ground
 Everything turns to blue
 I can't get through the smoke
 That's surrounding you
 Cause when you're falling
 I can't tell which way is down
 And when you're screaming
 Somehow I don't hear a sound
 And when you're seeing things
Then your feet don't touch the ground
 Cause when you're falling
 I can't tell which way is down
 I can see through the clouds
I can walk right through the walls
 Hang me off the ceiling
 But I can't take the fall
Should have crossed the river
 But I may get swept away
 Out there on the water
 You can still see me wave
 Cause when you're falling
 I can't tell which way is down
 When you're falling
 I can't tell which way is down
 I keep seeing all those things
My feet don't touch the ground
 Cause when you're falling
 I can't tell which way is down
 And when you're screaming
 Somehow I don't hear a sound
 And when you're seeing things
Then your feet don't touch the ground
 Don't touch the ground
 Cause when you're falling
 I can't tell which way is down
 And when your screaming
 Somehow I don't hear a sound
 I don't hear a sound
I can't hear a sound, I can't hear a sound
 No sound

Cause when you're falling
I can't tell which way is down
And when you're screaming
Somehow I don't hear a soundCause when you're falling
I can't tell which way is down
And when you're screaming
Somehow I don't hear a soundCause when you're fallingCause when you're fallingCause when
you're fallingWhen you're screaming
Somehow I don't hear a sound
