

# Live Life

Terry Reid

Some have to say it with meaning  
Some have to say it with words  
And there's that one they believe in  
There's something that you only just heard, ohh  
Then there's that hell that's both coming  
Trying to return from the bad  
Keeping us absorbed in the nation  
And the best thing the "other" ("good book" live version) never had That's why you got to live a  
life with love  
Till it drive you crazy  
You got to live a life with love  
Till it drive you mad  
You got to live a life with love  
Till it makes things easy  
You don't understand it  
You give it the message that you have understand it  
You give it the message that you have  
Oh you will come to the meaning  
Open yourself tonight  
Something about that old time religion  
Sit down and see a different thing go by  
Found in yourself this morning  
Walking around in the park  
Pleading a meaning by the wind  
Begging me pull on out a piece of pain in the dark That's why you got to live a life with love  
Till it drive you Crazy  
You got to live a life with love  
Till it drive you mad  
You got to live a life with love  
Till it makes things easy  
Come on let's give it this message that we have  
All you did find to being  
This one time you get out in life  
A good time rocking religion will make you sit down  
Both times in your life  
Suddenly it happens in the morning  
To that feeling of walking in the park  
Just that feeling i really wanna feel
